Independent auditors' report on review of condensed consolidated interim financial information

11 August 2021

The Board of Directors
SICO BSC (c)
P.O. Box 1331
Manama
Kingdom of Bahrain

Introduction

We have reviewed the accompanying 30 June 2021 condensed consolidated interim financial information of SICO BSC (c) (the "Bank") and its subsidiaries (together the "Group"), which comprises:

- the condensed consolidated statement of financial position as at 30 June 2021;
- the condensed consolidated statement of profit or loss for the three-month and six-month periods ended 30 June 2021;
- the condensed consolidated statement of comprehensive income for the three-month and six-month periods ended 30 June 2021;
- the condensed consolidated statement of changes in equity for the six-month period ended 30 June 2021;
- the condensed consolidated statement of cash flows for the six-month period ended 30 June 2021; and
- notes to the condensed consolidated interim financial information.

The Board of Directors of the Bank is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting' as modified by the Central Bank of Bahrain. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2021 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' as modified by the Central Bank of Bahrain.

The accompanying notes 1 to 21 form an integral part of this condensed consolidated interim financial information.

1. Reporting entity

This condensed financial information is the reviewed condensed consolidated interim financial information (the “condensed consolidated interim financial information”) of SICO BSC (c) (“SICO” or the “Bank”) and its subsidiaries (the “Group”). The Bank operates under a wholesale banking license issued by the Central Bank of Bahrain (the “CBB”).

During the period, the Bank has acquired 72.7% of the share capital of Muscat Capital Company (“MCC”), a Saudi Closed Joint Stock Company, which has been subsequently rebranded as SICO Capital (“SC”). The acquisition was completed on 15 March 2021 and the transaction is being accounted as per the requirements of IFRS 3 *Business Combinations* (refer to note 20 for details).

2. Basis of preparation

The condensed consolidated interim financial information of the Group has been prepared in accordance with applicable rules and regulations issued by the CBB including the CBB circulars on regulatory concessionary measures in response to novel coronavirus (“COVID-19”). These rules and regulations require the adoption of all International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), except for:

- (a) recognition of modification losses on financial assets arising from payment holidays provided to customers impacted by COVID-19 without charging additional profits, in equity instead of the profit or loss account as required by IFRS issued by IASB. Any other modification gain or loss on financial assets are recognised in accordance with the requirements of applicable IFRS. Please refer to note 4 for further details; and
- (b) recognition of financial assistance received from the government and / or regulators in response to its COVID-19 support measures that meets the government grant requirement, in equity, instead of the profit or loss account as required by the IAS 20. This will only be to the extent of any modification loss recorded in equity as a result of (a) above, and the balance amount to be recognised in the profit or loss account. Any other financial assistance is recognised in accordance with the requirements of IAS 20.

The above framework for the basis of preparation of the annual financial statements is hereinafter referred to as ‘IFRS as modified by the CBB’.

The condensed consolidated interim financial information of the Group has been presented in condensed form in accordance with the guidance provided by International Accounting Standard 34 ‘Interim Financial Reporting’, using the IFRS as modified by the CBB framework. Hence, the framework used in the preparation of the condensed consolidated interim financial information of the Group is hereafter referred to as “IAS 34 as modified by the CBB”.

The adoption of the above framework did not have any impact on the Group’s reported amounts in the current and comparative periods as the Group’s financial assets were not subject to modification.

The condensed consolidated interim financial information is reviewed by the external auditors, not audited. The condensed consolidated interim financial information does not include all the information required for full annual financial statements and should be read in conjunction with the audited consolidated financial statements of the Group for the year ended 31 December 2020. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance since the last annual consolidated financial statements as at and for the year ended 31 December 2020.

3. Comparatives

Due to the outbreak of the novel coronavirus (COVID-19) in early 2020, the Central Bank of Bahrain had exempted all public shareholding companies and locally incorporated banks from preparation and publication of their interim financial information for the three-month period ended 31 March 2020. Accordingly, the 30 June 2020 condensed consolidated interim financial information was the first interim period for 2020 and only included results for the cumulative six-month period ended 30 June 2020. In the current period interim financial information, the comparatives for the:

a) the condensed consolidated statement of financial position have been extracted from the audited consolidated financial statements for the year ended 31 December 2020;

b) the condensed consolidated statements of profit or loss, comprehensive income, changes in equity, cash flows, for the six-month period ended have been extracted from the reviewed condensed consolidated interim financial information of the Group for the six month period ended 30 June 2020; and

c) the condensed consolidated statements of profit or loss and condensed consolidated statements comprehensive income for the three-month period ended 30 June 2020 have been extracted from the management accounts of the Group that was used to prepare the reviewed condensed consolidated interim financial information of the Group for the six month period ended 30 June 2020. However, this information was not published separately in the prior interim period.

The comparative figures have been regrouped, where necessary, in order to conform to the current period's presentation. Such regrouping did not affect the previously reported profit, comprehensive income for the period or total equity.

4. COVID-19 impact

On 11 March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organisation ("WHO"). It has rapidly evolved and continues to affect worldwide. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility and a significant drop in prices. The estimation uncertainty is associated with the extent and duration of the expected economic downturn and forecasts for key economic factors including gross domestic product ("GDP"), employment, oil prices, etc. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns.

Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures. The Government of Kingdom of Bahrain and other governments across the world have announced various economic stimulus programmes ("Packages") to support businesses in these challenging times. The Group and its clients have received some benefits from these Packages to help sustain the impact of the crisis.

The pandemic as well as the resulting measures and policies are expected to have direct and / or knock-on impact on the Group. Management and the Board of Directors have been closely monitoring the potential impact of the COVID-19 developments on the Group's operations and financial position including possible loss of revenue, impact on asset valuations, impairment, review of onerous contracts and debt covenants, outsourcing arrangements, etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements. Based on their assessment, management is of the view that the Group will continue as a going concern entity at least for the next 12 months from the date of this condensed consolidated interim financial information.

4. COVID-19 impact (continued)

Fair valuation

The global capital and commodity markets have also experienced great volatility and a significant drop in prices. The Group's fair valuation exercise primarily relies on quoted prices from active markets for each financial instrument (i.e. Level 1 input) or using observable or derived prices for similar instruments from active markets (i.e. Level 2 input) and has reflected the volatility evidenced during the period and as at the end of the reporting date in its measurement of its financial assets and liabilities carried at fair value. Where fair value measurements was based in full or in part on unobservable inputs (i.e. Level 3), management has used its knowledge of the specific asset / investee, its ability to respond to or recover from the crisis, its industry and country of operations to determine the necessary adjustments to its fair value determination process.

5. Accounting policies

The new accounting standards issued and effective as at 1 January 2021 do not have a significant impact on the Group's accounting policies. The condensed consolidated interim financial information has been prepared using the same accounting policies and methods of computation applied in the preparation of the Groups' audited consolidated financial statements for the year ended 31 December 2020 except for the adoption of the below on account of the acquisition of a subsidiary:

(a) Business combination and goodwill

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs. The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interest in the acquiree; plus
- if the business combination achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in the consolidated profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION**For the six months ended 30 June 2021**

Bahraini Dinars '000

5. Accounting policies (continued)

IFRS 3 *Business Combinations* allows for the fair value of assets, liabilities and equity interests to be reported on a provisional basis on the date of the business combination. If new information, obtained within one year from the acquisition date about facts and circumstances that existed at the acquisition date, identifies adjustments to the above amounts, or any additional provisions that existed at the acquisition date, then the acquisition accounting will be revised. Revisions to provisional acquisition accounting are required to be done on a retrospective basis.

After initial recognition, goodwill and other intangibles are measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Where goodwill has been allocated to a cash-generating unit ("CGU") and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained. Intangibles with indefinite useful lives are subject to impairment testing at least on an annual basis. Separately recognised goodwill is not amortised and is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on separately recognised goodwill are not reversed.

6. Estimates

The preparation of the condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were similar to those applied to the consolidated financial statements for the year ended 31 December 2020.

7. Financial risk management

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk.

The condensed consolidated interim financial information do not include all financial risk management information and disclosures required in the annual consolidated financial statements and they should be read in conjunction with the Group's audited consolidated financial statements for the year ended 31 December 2020. There have been no changes in the risk management department or in any risk management policies since 31 December 2020.

The regulatory ratios are as follows:

	30 June 2021	31 December 2020
Liquidity Coverage Ratio ("LCR")	228%	263%
Net Stable Funding Ratio (note 21)	155%	170%
Minimum required by CBB	80%	80%

The average LCR for the six-month period ended 30 June 2021 was 218% (31 December 2020: 158%).

The Group continues to meet minimum required regulatory liquidity ratios and is also in compliance with the minimum required capital adequacy ratio ("CAR").

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

For the six months ended 30 June 2021

Bahraini Dinars '000

8. Operating segments

The Group's lines of business are brokerage, asset management, treasury, investment banking, market making and custody business. At present, the Group's revenue is reviewed by lines of business and the expenses and results are reviewed at Group level. Accordingly, there are no reportable segments.

9. Cyclicity

Due to nature of the Group's business, the six months' results reported in this condensed consolidated interim financial information may not represent a proportionate share of the overall annual results. In particular, dividends and performance fee are not necessarily recognised in the same interim reporting periods each year and are dependent on actions and performances of the investee companies and portfolio performance.

10. Appropriations

At the shareholders Annual General Meeting for the year 2020 on 23 March 2021, the shareholders resolved to make the appropriations of the profit for the year ended 31 December 2020, which were effected during the first quarter of 2021. These include cash dividend of BD 2,142 representing 5% of the paid up capital and charitable donations of BD 40.

11. Shares under employee share incentive scheme

The Group has established an Employee Share Incentive scheme (the "Scheme") which is operated through a Trustee. The Trust has been set up by the transfer of shares of the Bank allotted to the employees under the Scheme.

Under the Scheme, employees are entitled to receive shares as part of their bonus in ratios determined by the Board of Directors. The value of the shares is to be determined based on the fair value of the Group's net assets as at the reporting date. This Scheme is treated as a cash-settled share based payment transaction due to the restrictions imposed under the Scheme whereby the employees have to sell back the shares to the Group on resignation / retirement based on the vesting conditions mentioned in the scheme.

12. Contingencies, commitments and memorandum accounts

	30 June 2021	31 December 2020
Assets under custody	3,154,897	3,010,365
Assets under management	1,459,056	877,931
Guarantees	3,593	3,593
Other commitments	3,109	2,841

The recent acquisition of SC (see note 20) has resulted in consolidation of assets under management amounting to BD 299,081. The results of the Group do not reflect the income from such assets under management till 31 March 2021 due to the practical expedient for acquisition accounting and consolidation as explained in note 20.

19. Fair value (continued)

(ii) Fair value hierarchy

The Group measures fair values of financial instruments using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements from the date of reclassification.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly observable from market data.

Level 3: Valuation techniques using significant unobservable inputs. This category includes instruments where the valuation technique includes inputs not based on market observable data.

The tables below analyses financial assets and liabilities carried at fair value, by the level in the fair value hierarchy into which the fair value measurement is categorised.

As at 30 June 2021

Assets

Investments at fair value through profit or loss:

- Equity
- Debt securities
- Funds

Investment at fair value through other comprehensive income:

- Equities
- Debt securities

	Level 1	Level 2	Level 3	Total
- Equity	8,239	-	-	8,239
- Debt securities	8,972	67	-	9,039
- Funds	7,098	-	1,926	9,024
Investment at fair value through other comprehensive income:				
- Equities	5,584	-	-	5,584
- Debt securities	4,965	-	-	4,965
	34,858	67	1,926	36,851

As at 31 December 2020

Assets

Investments at fair value through profit or loss:

- Equity
- Debt securities
- Funds

Investment at fair value through other comprehensive income:

- Equities

19. Fair value (continued)

The following tables analyses the movement in Level 3 financial assets during the period:

	Level 3 30 June 2021	Level 3 30 June 2020
At 1 January	1,143	832
Total loss:		
- in income statement	(185)	(55)
- in other comprehensive income	-	-
Purchases	-	-
Settlements	-	-
Transfers into / (out) of level 3	968	412
At 30 June	1,926	1,189

20. Business combination

On 15 March 2021, the Bank acquired 72.7% stake in SICO Capital (SC) by way of a share swap between SICO and Bank Muscat SAOG with 38,563,894 of SICO's treasury shares swapped for 4,362,491 shares of SC. For practical purposes, the 31 March 2021 management accounts of SC have been used as best estimate for the purposes of acquisition accounting and consolidation.

The acquisition of SC will broaden SICO's regional presence and service offerings in the region's largest market, Saudi Arabia. The business combination has been accounted for using the acquisition method.

Purchase price consideration

Management has assessed that the consideration amounted to BD 5,785 is provisionally the fair value of consideration transferred.

Recognition of non-controlling interest

Non-controlling interest in SC has been estimated by applying the proportionate method of fair value of identifiable net assets.

Acquisition related costs

Transaction costs of BD 138 were expensed during 2020 and 2021 under other operating expenses.

Fair valuation of identifiable assets acquired and liabilities assumed

The fair value of the identifiable assets and liabilities of SC at the date of acquisition is summarised as below:

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

For the six months ended 30 June 2021

Bahraini Dinars '000

20. Business combination (continued)

	Fair value on acquisition date
Assets	
Cash and bank balances	5,109
Investments at fair value through profit or loss ("FVTPL")	1,841
Fees receivable	287
Other assets	1,554
Property, plant and equipment	10
Intangible assets and goodwill (intangible i.e. software in SC's books)	91
Total assets	8,892
Liabilities	
Short-term bank borrowings	1,468
Other liabilities	716
Total liabilities	2,184
Identifiable net assets	6,708

Goodwill

Goodwill arising from the acquisition has been recognised as follows:

Purchase price consideration	5,785
Non-controlling interest	1,831
Fair value of identifiable net assets	(6,708)
Goodwill	908

The above figures are provisional. If new information is obtained within one year of the date of acquisition about facts and circumstances that existed at the date of acquisition identifies adjustment to the above amounts, or any additional provisions that existed at the date of acquisition, then the accounting for the acquisition will be revised.

Impact on Group's results

The acquisition of SC resulted in increase in assets of the Group by BD 11,314, increase in liabilities of the Group by BD 4,709 and increase in off balance sheet items e.g. assets under management by BD 229,081. If SC was consolidated since beginning of the reporting period, the incremental net profits would have amounted to BD 31.

For the purpose of these condensed consolidated interim statement of cash flows, net cash acquired on business combination amounted to BD 5,109.

21. Net stable funding ratio

In August 2018, the Central Bank of Bahrain issued its regulations on Liquidity Risk Management (Module LM). The main objective of the NSFR is to promote the resilience of the banking system by improving the funding profile of banks by ensuring they have sufficient level of stable funding in relation to their assets and commitments. The NSFR thus promotes banks to rely on funding from stable sources and long-term borrowing in order to reduce the risks of disruptions which might impact the bank's liquidity position.

As per CBB Module LM, banks are required to meet the minimum NSFR of at least 100% on a continuous basis. This ratio was relaxed to 80% due to the pressures within the banking sector following the COVID-19 pandemic.

Further details on the calculation of the NSFR is presented in the following tables.

30 June 2021	Unweighted values (before applying factors)				Total weighted value
	No specified maturity	Less than 6 months	More than 6 months and less than one year	Over one year	
Available stable funding (ASF):					
Capital:					
Regulatory capital	65,195	-	-	92	65,287
Less stable deposits	12,761	-	-	-	11,485
NSFR derivative liabilities					
All other liabilities not included in above categories	-	124,104	-	-	6,275
Total ASF					83,047
Total NSFR high-quality liquid assets (HQLA)					
	24,873	-	-	-	2,357
Deposits held at other financial institutions for operational purposes					
Securities that are not in default and do not qualify as HQLA, including exchange-traded equities	-	27,232	-	-	13,616
Other assets:					
All other assets not included in the above categories	5,826	164,669	-	-	37,104
Off-balance sheet items	6,702	-	-	-	335
Total RSF					53,412
NSFR %					155%

INTRODUCTION

In accordance with the advice of the Central Bank of Bahrain vide its circular no. OG/259/2020 dated 14 July 2020, and in order to maintain transparency, the Bank discloses herewith additional information pertaining to the financial impact of Novel Coronavirus (“COVID-19”) on its financial statements and the results of operations.

This assessment would be carried out on an ongoing basis and necessary supplementary information would be provided as part of the interim and annual financial statements.

The declaration by the World Health Organization of a pandemic due to the spread of COVID-19 around the world suddenly and unexpectedly has caused a major global economic crises and panic in financial markets. Financial Services industry like other industries had to manage and overcome multifaceted challenges in an environment of economic uncertainty and higher risk. The global fight to control the coronavirus spread is not over yet. Nonetheless, many countries have started witnessing reduced number of COVID-19 infections and have started to ease lockdown measures while economic and social activities resuming gradually, the threat of a second wave of infections still looms and the situation remains uncertain.

CURRENT SITUATION

The Bank, in ongoing basis and since the initial days of the crises has been assessing the impact of the crises on all lines of business in terms of revenues, liquidity and overall exposures. While the impact on the income stream is being reviewed on continuous basis due to the markets turmoil, the Management are also cognizant of the need to maintain business activities while ensuring staff safety and business continuity. The Management have communicated to the clients early in the crises all measures that are implemented giving them the additional comfort that the Bank is fully prepared and their business with SICO is safeguarded from all aspects. In the meantime, the Management have assessed that SICO does not face any imminent liquidity crisis.

The Government of Bahrain had announced various support measures to assist the corporates in these unprecedented situations. The Central Bank of Bahrain has also provided a number of support measures in terms of the reporting requirement timelines and also easing certain threshold requirements.

SICO has taken a number of steps in the business continuity planning and implementation process keeping in mind the overall safety and well-being of our staff members while ensuring no operational disturbances in running the business.

Overall, the Bank’s financial performance for the first half of 2021 has improved considerably as compared the same period in 2020. The first half of 2020 witnessed depressed results due to the COVID-19 related economic shock and the extreme volatility experienced in the oil prices and its resultant impact on the market valuation of securities. However, the introduction of vaccines as well as other measures taken by countries in the region and across the World has contributed positively to the market valuations and the Bank’s performance

The Bank achieved a net profit of BD 2.8 million for the period ended 30 June 2021 against BD 159 thousand achieved in the same period of the previous year. Operating income for the period ended 30 June 2021 was BD 7,375 as against BD 4,337 achieved in the same period previous year.

Table of income components (BD ‘000):

	30 June 2021	30 June 2020
Net investment income	2,732	(342)
Net fee income	2,264	1,730
Brokerage and other income	1,530	2,117
Net other interest income	846	727
Income from investment property	3	105
Total	7,375	4,337

SICO BSC (c)

Supplementary Disclosures – Financial Impact of COVID-19 (Unreviewed) For the period ended 30 June 2021

Bahraini Dinars '000

In the first half of 2020, the **Proprietary book investment** portfolio took a significant hit due to the market conditions that prevailed during the first three to four months of 2020. The drop in market valuations were due to both the COVID-19 pandemic as well as the significant drop in the oil prices. A number of measures that includes revising asset allocations, implementing hedging strategies, have been put in place. The later part of 2020 witnessed some good recovery. The year 2021 witnessed good recovery in the market valuations that had led to a good performance as compared to the same period previous year.

Fee based income experienced an increase of 31% when compared to the previous year, mainly due to the improvements in the portfolio valuations and also due to the increase in Assets under Management.

The market volatilities that existed in the first half of 2020 resulted in increase in **Brokerage income** in the previous year. In the short term, this volatility had created good trading opportunity for clients in both the equities and fixed income space.

Other interest income reflected a growth of 16% from previous year levels. This has been achieved due to the efficient management of the liquidity position as well an increase in the reverse repo based business activities.

Others:

- The Bank continues to meet the regulatory requirement of CAR, LCR and NSFR.
- A detailed analysis of the ECL provisioning requirements has been carried out and considering the nature of the exposures, the stressed economic situation has not resulted in the need for any increase to the existing ECL provisions.
- Strict cost control measures are in place; however due attention is given and necessary expenditure is incurred to ensure safety and well-being of staff personnel

CLOSING NOTE

The Management believes that ample measures have been taken by the Bank to handle the challenges of this uncertain situation. At this point, the priority is to ensure safety of our employees, clients, partners and all other stakeholders. The Bank will continue to maintain a resilient financial position and an attentive approach to dealing with all the clients.
